

Dermacase

Stewart P. Adams, MD, FRCPC

.....

CAN YOU IDENTIFY THIS CONDITION?

A 25-year-old woman had had annular migratory patches on her tongue for 3 years. She complained of a burning sensation when she ate acidic or spicy foods.

The most likely diagnosis is:

1. Geographic tongue
2. Herpes gingivostomatitis
3. Oral candidiasis
4. Aphthous stomatitis
