

Vasectomy

Procedures and assessments video series

Juan Antonio

García-Rodríguez MD MSc CCFP DipSportsMed

Check out this month's instructional video—"Vasectomy. Traditional method." Vasectomy is a minor surgical procedure to obtain permanent birth control. It is performed under local anesthetic. The video reviews the technique and equipment required for this procedure.

The video "Vasectomy. Traditional method" is available at www.cfp.ca. Go to this article online, then click on **CFPlus** in the menu at the top right-hand side of the page.

Past instructional videos can be accessed online at www.cfp.ca. On the home page, click on Collections, then click on Video Series in the left-hand menu.

Dr García-Rodríguez practises family medicine and sports medicine in Calgary, Alta, and is Assistant Professor in the Department of Family Medicine at the University of Calgary.

Video 6. Vasectomy

Can you identify this condition?

Marisa G. Ponzo MD PhD Jonathan Shapero MD FRCPC
Harvey Shapero MD FRCPC

A 13-year-old girl presents with a 9-month history of hyperpigmentation of her elbows, neck, chin, and axillae. She is otherwise healthy and takes no medications. Her family history is noncontributory.

The most likely diagnosis is

1. Acanthosis nigricans
2. Erythrasma
3. Intertrigo
4. Postinflammatory hyperpigmentation
