

# Acknowledgment

We would like to thank the participants of the Artificial Intelligence for Family Medicine Research in Canada Roundtable, who provided their expertise, time, and energy to help increase knowledge around the current state and future directions of this field. Several CFPC staff were involved in the planning and execution of this project; we would especially like to thank Andre Girouard, Liza Santos, and Cheri Nickel. An AI working group (experts and CFPC staff) continues to meet regularly and work on the topic.

This work was financially supported by the Foundation for Advancing Family Medicine, AMS Healthcare, and Mitacs through the Business Strategy Internship (Recipient: Mahzabeen Emu).
